GEAR

Back to School

With the end of summer comes a renewed focus on productivity, yet school-year resolutions are better kept with a well-appointed workspace. *Arrive* has curated office accessories so you can spend less time scrounging and squinting and more time doing what you do best—even if that just means scheduling the next vacation.

Woven leather achieves ergonomic and breathable seating the old-fashioned way. **Task Chair** from Mark Albrecht Studio; \$1,738 at markalbrechtstudio.com
